HIGHLIGHTS OF THE 2004 ANTLERLESS ADDENDUM

1 The antlerless application deadline is 5 p.m. June 21, 2004 for mail-in applications.

2 **Apply online:** Applications, along with permit and handling fees, will be accepted through the Division's Internet address at: wildlife.utah.gov. The deadline for online applications is 11:00 p.m. June 21, 2004.

3 Up to four people may apply as a group for antlerless deer, elk and pronghorn.

4 If an error is found on an application, those applications received through the mail, through an overnight mail service, or through the Internet by 5 p.m. June 14, 2004, may receive an application correction letter.

5 Late applications will not be considered in the drawing; however, the \$5 handling fee will be used to process the application for re-evaluation of Division or third-party errors and to send preprinted applications in following years. However, applications received after July 6, 2004 will be returned.

6 Personal or business checks drawn on in-state-Utah accounts, money orders, cashier's checks or American Express, Discover, MasterCard and VISA credit cards and debit cards are accepted for payment. (When applying in the drawing and using a credit or debit card, please be sure to have enough available credit to cover permit fees.)

7 The Division may void and reissue permits when the payment from personal checks or credit cards is invalid.

8 Hunt numbers have changed. Use the blue 3-digit hunt number listed on the hunt table in this proclamation.

9 The posting date of the drawing shall be considered the purchase date of a permit.

10 Drawing results will be posted on the Division's Web site by July 29, 2004. Drawing results may also be obtained by calling (800) 221-0659, 8 a.m. – 11 p.m. Monday – Friday, except holidays.

11 The second drawing for remaining antlerless permits will not be held in 2004. After the draw, permits that remain will be available first-come, first-served from participating **Online** License Agents, Division offices, through the mail, and the Division's Internet address beginning 7:30 a.m. August 3, 2004.

12 Hunter Education. If an applicant for a resident or nonresident hunting license has completed a hunter education course and is applying for a hunting permit or license through the Division's drawings, Internet site, or other electronic means authorized by the Division, the applicant's hunter education number and the name of the state,

province, or country that issued the number may constitute proof of completion of a hunter education course. The Division may research the hunter education number to verify that the applicant has completed a Division-approved hunter education course.

13 A person may obtain two elk permits in any one of the following combinations:

- (a) one bull elk permit and one antlerless permit;
- (b) two antlerless permits; or
- (c) one hunter's choice permit and one antlerless permit.

For the purposes of obtaining two elk permits, a hunter's choice elk permit is considered a bull elk permit.

14 A person who wishes to obtain two elk permits may do so in one of the following ways:

- (a) any person who has already obtained an elk permit may apply for an antlerless elk permit in the antlerless drawing or purchase an antlerless elk permit over-the-counter beginning August 3, 2004; OR
- (b) any person who has not obtained an elk permit may apply for and obtain one antlerless elk permit through the antlerless drawing beginning May 25, 2004 or purchase a remaining antlerless permit over-the-counter beginning August 3, 2004; OR
- (c) any person who has not obtained an elk permit may apply for one antlerless elk permit in the antlerless drawing, and purchase a general bull elk permit beginning June 17, 2004 (any bull, spike bull, archery hunter's choice, or muzzleloader spike bull elk permit); OR
- (d) any person who has not obtained an elk permit may obtain two antlerless elk permits over-the-counter beginning August 3, 2004.

15 A person may not waste or permit to be wasted or spoiled any protected wildlife or any part of them (UCA 23-20-8). Hunters must be aware that big game harvested during the warm weather, especially during early season hunts, must receive immediate care to ensure that the meat does not spoil.

16 Hunter orange must be worn when any centerfire rifle hunt is in progress in the same area, including CWMUs.

17 Caution: The Division of Wildlife Resources urges hunters to use extreme caution and exercise good judgement during antlerless seasons. Please be sure of your target. "Accidents" still cause damage to the resource. Party hunting, taking over limits, and abandoning wildlife are common violations witnessed by Utah Conservation Officers. These crimes seriously erode public support of hunting and are often punishable as felonies. Persons convicted of

these types of violations are subject to fines, civil restitution, jail time and loss of hunting privileges.

18 Archery Ethics Course. Certificate of Completion Required. Successful completion of an archery hunter's ethics course and possession of the certificate while hunting is required to participate in any Extended Archery hunt. The orientation course is in addition to the Hunter Education requirement. The orientation course will be available online through the Division's Internet site at: wildlife.utah.gov. (See the 2004 Bucks, Bulls and Once-in-a-Lifetime Big Game Proclamation for more information.)

19 Because of concerns about Chronic Wasting Disease, new rules apply to importation or transportation of dead mule deer, elk and white-tailed deer through or into Utah.

20 **PRIVATE LANDS:** While taking wildlife or engaging in wildlife related activities, a person may not, without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "Cultivated land" means land which is readily identifiable as: 1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The DWR cannot guarantee access to any private land. If you plan to hunt in an area that is made up of all or mostly private lands, you must also obtain WRITTEN permission from the landowner or person in charge. Unless otherwise provided, all hunt units exclude CWMUs and Native American Tribal Lands.

21 New license suspension guidelines: The 2001 Legislature enacted new guidelines for the suspension of one's hunting privileges following the adjudication of a wildlife violation. A person in violation of any Title 23 or Wildlife Board Rule and, (i) is convicted of a third degree felony may have their wildlife license or permit privileges suspended for a period of seven years; (ii) is convicted of a Class A misdemeanor may have their wildlife license or permit privileges suspended for a period of five years; or (iii) is convicted of a class B misdemeanor may have their wildlife license or permit privileges suspended for a period of three years. Each of the above periods of suspension may be doubled if the animal involved in the violation qualifies as a trophy animal as per 23-20-4.

If any person, within a five-year period, commits three or more Class B or Class C wildlife violations, that person's license and permit privileges may be suspended for a period of up to one year for each violation.

Utah Big Game Proclamation Addendum

Antlerless 2004

I. Purpose and Authority

R657-5-1

(1) Under authority of Sections 23-14-18 and 23-14-19, the Utah Wildlife Board has established this Antlerless Addendum to the Bucks, Bulls & Once-In-A-Lifetime Big Game Proclamation for taking deer, elk, pronghorn, moose, bison, bighorn sheep and Rocky Mountain goat.

(2) Antlerless hunts, season dates, areas and drawing procedures are published herein. Hunters must comply with this addendum in addition to the general provisions, methods of take, requirements and other administrative details provided in Rule R657-5 and the Bucks, Bulls & Once-In-A-Lifetime Big Game Proclamation of the Wildlife Board.

(3) This Antlerless Addendum expires March 1, 2005, unless modified or rescinded by the Wildlife Board or the director of the Division of Wildlife Resources.

II. Antlerless Applications

A. Drawing and Permit Sales

(1) A person may obtain:

- (a) one antlerless deer permit, except in areas where two-doe permits are available;
- (b) two antlerless elk permits as provided in Section III.B.(3);
- (c) a doe pronghorn permit, except in areas where two-doe permits are available; and
- (d) an antlerless moose permit.

(2) Antlerless permits as provided in Subsection (1) may only be obtained through the antlerless drawing procedure.

B. Antlerless Application and Drawing Procedure

1. Application — Deadline

R657-5-57

(1) The 2004 applications will be available by May 25, 2004 from license agents, Division offices, and through the Division's Internet address: wildlife.utah.gov.

(2) The Division may mail preprinted applications as a courtesy to applicants who have applied in previous years. Any person who does not receive a preprinted application may obtain an application from a license agent, Division office or from the Division's Internet address.

(3) Residents and nonresidents may apply for, and draw the following permits, except as provided in Subsection (4):

- (a) antlerless deer;
- (b) antlerless elk;
- (c) doe pronghorn; and
- (d) antlerless moose.

(4) Any person who has obtained a pronghorn permit, or a moose permit may not apply for a doe pronghorn permit or antlerless moose permit, respectively, except as provided in Section 6, Antlerless Permits Remaining After the Drawing.

(5) A person may not submit more than one application in the drawing per each species as provided in Subsection (3).

(6) Only a resident may apply for or obtain a resident permit and only a nonresident may apply for or obtain a nonresident permit, except as provided in Section 4, Antlerless Big Game Drawing and Section 6, Antlerless Permits Remaining After the Drawing.

(7)(a) Applications must be submitted in one of the following ways:

(i) through the mail to:

Utah Wildlife Administrative Services
P.O. Box 30389

Salt Lake City, Utah 84130-0389; or

(ii) through an overnight mail service to:

Utah Wildlife Administrative Services
185 North Maine Street
Fallon, Nevada 89406; or

(iii) through the Division's Internet address: wildlife.utah.gov.

(b) Applications must be received through the mail at the Utah Wildlife Administrative Service's P.O. Box, through an overnight mail service at the Utah Wildlife Administrative Service's street address no later than 5 p.m., June 21, 2004, or through the Division's Internet address no later than 11 p.m., June 21, 2004. Allow the Post Office time to process the mail. This is not a drop box. The Utah Division of Wildlife Resources cannot guarantee delivery. Check with your local postmaster for service. Overnight mail cannot be delivered to a Post Office box.

(c) If an error is found on an application, those applications received through the mail, through an overnight mail service or through the Internet by 5 p.m., June 14, 2004 may receive an application correction letter. Corrections by the applicant can only be made using the personalized and numbered application correction letter mailed to the applicant. Corrections must be mailed to the address identified in the application correction letter and received no later than the date indicated in the letter.

(d) If an error is found on an application received between June 14 and June 21, the application may be considered for correction if processing time allows.

(e) The opportunity to correct an error is not guaranteed. The Division reserves the right to correct applications without sending a correction letter.

(9)(a) Late applications received by July 6, 2004 will not be considered in the drawing, but will be processed for the purpose of entering data into the Division's draw database to provide:

- (i) future preprinted applications;
- (ii) notification by mail of late application and other draw opportunities; and
- (iii) re-evaluation of Division or third-party errors.

(b) The \$5 handling fee will be used to process the late application. Any permit fees submitted with the application will be refunded.

(c) Late applications received after July 6, 2004 will not be processed and will be returned.

(10) Any person who applies for a hunt that occurs on private land is responsible for obtaining written permission from the landowner to access the property. To avoid disappointment and wasting the permit and fee if access is not obtained, hunters should get written permission before applying. The Division does not guarantee access and does not have the names of landowners where hunts occur. Hunts that occur primarily on private land are indicated by an asterisk in the hunt tables.

(11) To apply for a resident permit, a person must establish residency at the time of purchase.

(12) The posting date of the drawing shall be considered the purchase date of a permit.

2. Fees for Antlerless Applications

R657-5-58 & R657-42

(1) Each application must include the permit fee and a \$5 nonrefundable handling fee for each species applied for, except when applying with a credit or debit card, the permit fees and handling fees must be paid pursuant to Subsection (3)(c).

(2)(a) Personal checks, business checks, money orders, cashier's checks, and American Express, Discover, MasterCard and VISA credit or debit cards are accepted.

(b) Personal or business checks drawn on an out-of-state account are not accepted.

(c) Third-party checks are not accepted.

(d) All payments must be made payable to the Utah Division of Wildlife Resources.

(3)(a) Credit or debit cards must be valid at least 30 days after the drawing results are posted.

(b) If applicants are applying as a group, all fees for all applicants in that group must be charged to one credit card.

(c) Handling fees and donations are charged to the credit or debit card when the application is processed. Permit fees are charged after the drawing, if successful.

(d) Permit fees may be charged to the credit or debit card prior to the post date, if successful.

(e) The Division shall not be held responsible for bank charges incurred for the use of credit or debit cards.

(4)(a) An application is voidable if the check is returned unpaid from the bank or the credit or debit card is invalid or refused.

(b) The Division charges a \$20 returned check collection fee for any check returned unpaid from the bank.

(5)(a) A license or permit is voidable if the check is returned unpaid from the bank or the credit or debit card is invalid or refused.

(b) The Division may make attempt to contact the successful applicant by phone or mail to collect payment prior to voiding the permit.

(c) The Division shall reinstate the applicant's bonus points or preference points, whichever is applicable, and waive waiting periods, if applicable, when voiding a permit in accordance with Subsection (b).

(d) A permit which is deemed void in accordance with Subsection (b) may be reissued by the Division to the next person listed on the alternate drawing list.

(6) A license or permit received by a person shall be deemed invalid if payment for that license or permit is not received, or a check is returned unpaid from the bank, or the credit card is invalid or refused.

(7) Hunting with a permit where payment has not been received for that permit constitutes a violation of hunting without a valid permit.

(8) The Division may require a money order or cashier's check to correct payment for a license, permit, or certificate of registration.

(9) Any person who fails to pay the required fee for any application, license, permit or certificate of registration, shall be ineligible to obtain any other license, permit, tag, or certificate of registration until the delinquent fees and associated collection costs are paid.

3. Applying as a Group

R657-5-26

(1)(a) Up to four people may apply together for deer, elk or pronghorn permits.

(b) Group applications are not accepted for moose permits.

(2)(a) Applicants must indicate the number of hunters in the group by filling in the appropriate box on each application form.

(b) If the appropriate box is not filled out with the number of hunters in the group, each hunter in that group shall be entered into the drawing as individual hunters, and not as a group.

(3) Group applicants must submit their applications together in the same envelope.

(4) Residents and nonresidents may apply together.

(5) When applying as a group:

(a) if one applicant is successful in drawing a permit, then all applicants with valid applications in that group are successful;

(b) if the group is rejected due to an error in fees and only one species is applied for, then the entire group is rejected;

(c) if the group is rejected due to an error in fees and more than one species is applied for, the group will be kept in the drawing for any species with sufficient fees, using the draw order (for example, if a group applies for antlerless elk and antlerless deer, but only sends enough money to cover antlerless elk, they will only be in the drawing for antlerless elk. If they are unsuccessful in the antlerless elk drawing, they will not be included in the antlerless deer drawing); or

(d) if one or more members of the group are rejected due to an error other than fees, the members with valid applications will be kept in the drawing, unless the group indicates on the application that all members are to be rejected.

(i) The applicant whose application is on the top of all the applications for that group, will be designated the group leader.

(ii) If any group member has an error on their application that is not corrected during the correction process, the reject box on the group leader's application will determine whether the entire group is rejected.

4. Antlerless Big Game Drawing

R657-5-59

(1) Permits are drawn in the following order:

(a) antlerless moose;

(b) antlerless elk;

(c) antlerless deer; and

(d) doe pronghorn.

(2) If permits remain after all choices have been evaluated separately for residents and nonresidents, a second evaluation will be done allowing cross-over usage of remaining resident and nonresident permit quotas. (For example, if nonresident permits are available for a certain hunt, they will be filled by residents who were unsuccessful in the drawing for the same hunt.)

(3)(a) Applicants will be notified by mail or e-mail of draw results by July 29, 2004. The drawing results will be posted on the Division's Internet address: wildlife.utah.gov

(b) Drawing results may also be obtained by calling 1-800-221-0659 (Wildlife Administrative Services), 8 a.m.—11 p.m., Monday—Friday, except holidays.

5. Antlerless Application Refunds

R657-5-60

(1) Unsuccessful applicants, who applied with a check or money order, will receive a refund in August.

(2)(a) Unsuccessful applicants, who applied with a credit or debit card, will not be charged for a permit.

(b) Unsuccessful applicants, who applied as a group, will receive an equally distributed refund of money remaining after the successful applicants' permits are paid for (See Section 11A.3.(5)).

(c) If group members have other financial arrangements between themselves, group members should be prepared to reallocate each group member's individual refunds among themselves.

(3) The \$5 handling fees are nonrefundable.

6. Antlerless Permits Remaining After the Drawing

R657-5-61

Permits remaining after the drawing may be obtained beginning August 3, 2004, on a first-come, first-served basis from Division offices, through participating online license agents, and through the mail.

7. Application Withdrawal

R657-5-62

(1) An applicant may withdraw their application for the antlerless permit drawing by requesting such in writing by July 2, 2004.

(2) The applicant must send their notarized signature with a statement requesting that their application be withdrawn to the Salt Lake Division office.

(3) Handling fees will not be refunded.

8. Application Amendments

R657-5-62

(1)(a) An applicant may amend their application for the antlerless drawing by requesting such in writing by June 21, 2004.

(b) An amendment form is available at Division offices and through the Division's Internet address: wildlife.utah.gov, which requests all the necessary information to amend an application.

(2) The applicant must send their notarized signature with a statement requesting that their application be amended to the Salt Lake Division office.

(3) The applicant must identify in their statement the requested amendment to their application.

(4) Handling fees will not be refunded.

(5) An amendment may cause rejection if the amendment causes an error on the application.

9. Sales Final — Exceptions

23-19-38

(1) Sales of all licenses, certificates or permits are final, and no refunds may be made by the Division, except as provided in Subsection (2).

(2) The Division may refund the amount of the license, certificate or permit if:

(a) the Division or Wildlife Board discontinues the activity for which the license, certificate or permit was obtained;

(b) the Division determines that it has erroneously collected a fee;

(c)(i) a person is not able to participate in a permitted activity due to illness or injury;

(ii) the person furnishes verification of illness or injury from a physician; and

(iii) the permit is surrendered before the season for which the permit was issued begins; or

(d) the person to whom the license, certificate or permit is issued dies prior to that person's being able to participate in the activity for which the license, certificate or permit was obtained.

(3) The Division director may reallocate surrendered permits in accordance with Rule R657-42.

C. Waiting Periods

1. Antlerless Moose (5-Year Waiting Period)

R657-5-33

(1) A person who obtained an antlerless moose permit or an antlerless moose Cooperative Wildlife Management Unit permit through the Antlerless Drawing process in 1999, 2000, 2001, 2002, or 2003 may not apply for an antlerless moose permit in 2004.

(2) A person who obtains an antlerless moose or an antlerless moose Cooperative Wildlife Management Unit permit through the Antlerless Drawing process in 2004 may not apply for an antlerless moose permit again until 2010.

(3) A waiting period does not apply to an antlerless moose Cooperative Wildlife Management Unit permit obtained through the landowner.

2. Waiting Periods for Permits Purchased After the Drawing

R657-5-35

(1) Waiting periods do not apply to the purchase of antlerless permits remaining after July 29, 2004.

(2) However, waiting periods are incurred as a result of purchasing remaining permits after the drawing. Therefore, if a remaining permit is purchased in the current year, waiting periods will be in effect when applying for that species in the drawing in following years.

III. Chronic Wasting Disease

A. Carcass Importation

R657-5-69

(1) It is unlawful to import dead elk, mule deer, or white-tailed deer or their parts from the areas of any state, province, game management unit, equivalent wildlife management unit, or county, which has deer or elk diagnosed with Chronic Wasting Disease, except the following portions of the carcass:

(a) meat that is cut and wrapped either commercially or privately;

(b) quarters or other portion of meat with no part of the spinal column or head attached;

(c) meat that is boned out;

(d) hides with no heads attached;

(e) skull plates with antlers attached that have been cleaned of all meat and tissue;

(f) antlers with no meat or tissue attached;

(g) upper canine teeth, also known as buglers, whistlers, or ivories; or

(h) finished taxidermy heads.

(2)(a) The affected states, provinces, game management units, equivalent wildlife management units, or counties, which have deer or elk diagnosed with Chronic Wasting Disease shall be available at Division offices and through the Division's Internet address.

(b) Importation of harvested elk, mule deer or white-tailed deer or their parts from the affected areas are hereby restricted pursuant to Subsection (1).

(3) Nonresidents of Utah transporting harvested elk, mule deer, or white-tailed deer from the affected areas are exempt if they:

(a) do not leave any part of the harvested animal in Utah and do not stay more than 24 hours in the state of Utah;

(b) do not have their deer or elk processed in Utah; or

(c) do not leave any parts of the carcass in Utah.

B. Chronic Wasting Disease — Infected Animals

R657-5-70

(1) Any person who under the authority of a permit issued by the Division legally takes a deer or elk that is later confirmed to be infected with Chronic Wasting Disease may:

(a) retain the entire carcass of the animal;

(b) retain any parts of the carcass, including antlers, and surrender the remainder to the Division for proper disposal; or

(c) surrender all portions of the carcass in their actual or constructive possession, including antlers, to the Division and receive a free new permit the following year for the same hunt.

(2) The new permit issued pursuant to Subsection (1)(c) shall be for the same species, sex, weapon type, unit, region, and otherwise subject to all the restrictions and conditions imposed on the original permit, except season dates for the permit shall follow the proclamation of the Wildlife Board for taking big game published in the year the new permit is valid.

(3) Notwithstanding other rules to the contrary, private landowners and landowner associations may refuse access to private property to persons possessing new permits issued under Subsection (1)(c).

IV. Hunting

A. Antlerless Deer Hunts

R657-5-42

(1) To hunt an antlerless deer, a hunter must obtain an antlerless deer permit.

"Antlerless deer" means a deer without antlers or with antlers five inches or shorter (R657-5 2(2)(a)).

(2)(a) An antlerless deer permit allows a person to take one antlerless deer, per antlerless deer tag, using any legal weapon within the area and season as specified on the permit and in this addendum.

(b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains an antlerless deer permit for a Cooperative Wildlife Management Unit as specified on the permit.

(3) A person who has obtained an antlerless deer permit may not hunt during any other antlerless deer hunt or obtain any other antlerless deer permit.

(4) (a) A person who obtains an antlerless deer permit and any of the permits listed in Subsection (b), or any permit valid during the general archery deer hunt, may use the antlerless deer permit during the established season for the antlerless deer permit and during the established season for the permits listed in Subsection (b) provided:

- (i) the permits are both valid for the same area;
 - (ii) the appropriate archery equipment is used if hunting with an archery permit;
 - (iii) the appropriate muzzleloader equipment is used if hunting with a muzzleloader permit.
- (b)(i) General archery deer;
- (ii) general muzzleloader deer;
 - (iii) limited entry archery deer; or
 - (iv) limited entry muzzleloader deer.

B. Antlerless Elk Hunts

R657-5-48

(1) To hunt an antlerless elk, a hunter must obtain an antlerless elk permit.

"Antlerless elk" means an elk without antlers or with antlers five inches or shorter (R657-5 2(2)(b)).

(2)(a) An antlerless elk permit allows a person to take one antlerless elk using any legal weapon within the area and season as specified on the permit and in this addendum.

(b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains an antlerless elk permit for a Cooperative Wildlife Management Unit as specified on the permit.

(3)(a) A person may obtain two elk permits each year, provided one or both of the permits is an antlerless elk permit.

(b) For the purpose of obtaining two elk permits, a hunter's choice elk permit may not be considered an antlerless elk permit.

(4) (a) A person who obtains an antlerless elk permit and any of the permits listed in Subsection (b), or any permit valid during the general archery deer hunt, may use the antlerless elk permit during the established season for the antlerless elk permit and during the established season for the permits listed in Subsection (b) provided:

- (i) the permits are both valid for the same area;
 - (ii) the appropriate archery equipment is used if hunting with an archery permit;
 - (iii) the appropriate muzzleloader equipment is used if hunting with a muzzleloader permit.
- (b)(i) General archery deer;
- (ii) general archery elk;
 - (iii) general muzzleloader deer;
 - (iv) general muzzleloader elk;
 - (v) limited entry archery deer;
 - (vi) limited entry archery elk;
 - (vii) limited entry muzzleloader deer; or
 - (viii) limited entry muzzleloader elk.

C. Doe Pronghorn Hunts

R657-5-50

(1) To hunt a doe pronghorn, a hunter must obtain a doe pronghorn permit.

"Doe pronghorn" means a pronghorn without horns or with horns five inches or shorter (R657-5-2(2)(j)).

(2)(a) A doe pronghorn permit allows a person to take one doe pronghorn, per doe pronghorn tag, using any legal weapon within the area and season as specified on the permit and in this addendum.

(b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains a doe pronghorn permit for a Cooperative Wildlife Management Unit as specified on the permit.

(3) A person who has obtained a doe pronghorn permit may not hunt during any other pronghorn hunt or obtain any other pronghorn permit.

D. Antlerless Moose Hunts

R657-5-51

(1) To hunt an antlerless moose, a hunter must obtain an antlerless moose permit.

"Antlerless moose" means a moose without antlers or with antlers shorter than its ears (R657-5-2(2)(c)).

(2)(a) An antlerless moose permit allows a person to take one antlerless moose using any legal weapon within the area and season specified on the permit and in this addendum.

(b) A person may not hunt on any Cooperative Wildlife Management Units unless that person obtains an antlerless moose permit for a Cooperative Wildlife Management Unit as specified on the permit.

(3) A person who has obtained an antlerless moose permit may not hunt during any other moose hunt or obtain any other moose permit.

V. Cooperative Wildlife Management Unit (CWMU) Antlerless Permits

Less than one-fourth of Utah's 54.3 million acres are in private ownership, but more than 60% of the state's big game winter range occurs on private land. Utah is growing rapidly and its private rangelands face increasing pressure from expanding suburban and urban development. These critical circumstances have led to the creation of the Cooperative Wildlife Management Unit Program.

Cooperative Wildlife Management Units (CWMUs) are private land areas that in addition to ranching and other private uses are also managed for big game species in partnership with the Division of Wildlife Resources. While big game animals are the principle species managed for, other wildlife also benefit.

The CWMU Program, through allocation of big game hunting permit vouchers to landowners, provides economic incentive to the owners to keep private range and forest lands in wildlife habitat rather than succumbing to development. CWMUs also allow for free public hunting access onto the private lands enrolled in the program.

Some public land is included in certain CWMUs because it is isolated by private ownership. In other cases it may be included in order to clarify unit boundaries and to improve the ability to manage the resident wildlife. When public lands are included, the public is compensated with additional hunting opportunity.

Both private and public hunters generally enjoy greater hunting benefits on CWMUs in the form of improved harvest success and reduced hunter competition.

Successful applicants are responsible for contacting the CWMU operator to obtain the following:

(a) Hunting dates of guaranteed access within the legal CWMU hunting season framework. Realize that both the operator and the hunter must schedule around individual needs — be realistic and patient.

(b) A map of the CWMU showing access and the acreage you will be allowed to hunt. The CWMU acreage should be equally available to private and public CWMU hunters.

(c) A copy of rules. CWMUs are allowed to develop rules by which hunters invited onto the units are expected to comply. Rules may include such requirements as no pre-season scouting, checking into and out of the unit daily, limited vehicle access, no overnight camping, a marksmanship test, limiting the number of hunting companions, etc. Hunters may be asked to leave a CWMU for failure to abide by reasonable rules of the CWMU (Utah Code 23-23-11).

Complaint Process: Hunters wishing to lodge complaints against a CWMU should contact the Division immediately. Biologists and Conservation Officers have access to forms by which complaints may be made. Otherwise, the complaint may be made to any Division personnel. Because time is of the essence, it is expected that the hunter and the operator will make every effort to resolve issues before they escalate to the Division level. If a problem cannot be resolved locally, it may be passed on to a CWMU Advisory Committee. For more information on CWMUs, see Utah Admin. Code, Rule R657-37.

HOW TO OBTAIN CWMU PERMITS

(1) Residents and nonresidents may apply for antlerless CWMU permits through the drawing or may obtain CWMU permit vouchers from the landowner or operator.

(2) CWMU landowner association members, CWMU landowner association operators, and their spouses or dependant children may not apply in the drawing for CWMU permits.

- (3) CWMU vouchers may be redeemed:
- (a) by mailing the vouchers to the Division, CWMU Licensing, 1594 W. No. Temple, Suite 2110 PO Box 146301, Salt Lake City, UT 84114 to obtain permits (please allow 10 to 14 days for processing); or
 - (b) over-the-counter at any Division office.

VI. Poaching-Reported Reward Permits

R657-5-23

- (1) Any person who provides information leading to another person's arrest and successful prosecution for wanton destruction of a buck deer, bull elk, buck pronghorn, bull moose, bison, desert bighorn ram, Rocky Mountain bighorn ram or Rocky Mountain goat under Section 23-20-4 for any Once-In-A-Lifetime species or within any limited entry area may receive a permit from the Division to hunt for the same species and on the same Once-In-A-Lifetime or limited entry area where the violation occurred, except as provided in Subsection (2).
- (2)(a) In the event that issuance of a Poaching-Reported Reward Permit would exceed 5 percent of the total number of Once-In-A-Lifetime or limited entry permits issued in the following year for the respective area, a permit shall not be issued for that respective area. As an alternative, the Division may issue a permit as outlined in Subsections (b) or (c).
- (b) If the illegally taken animal is a bull moose, bison, desert bighorn ram, Rocky Mountain bighorn ram or Rocky Mountain goat, a permit for an alternative

- species and an alternative Once-In-A-Lifetime or limited entry area that has been allocated more than 20 permits may be issued.
- (c) If the illegally taken animal is a buck deer, bull elk or buck pronghorn, a permit for the same species on an alternative limited entry area that has been allocated more than 20 permits may be issued.
- (3)(a) The Division may issue only one Poaching-Reported Reward Permit for any one animal illegally taken.
- (b) No more than one Poaching-Reported Reward Permit shall be issued to any one person per successful prosecution.
- (c) No more than one Poaching-Reported Reward Permit per species shall be issued to any one person in any one calendar year.
- (4)(a) Poaching-Reported Reward permits may only be issued to the person who provides the most pertinent information leading to a successful prosecution. Permits are not transferrable.
- (b) If information is received from more than one person, the director of the Division shall make a determination based on the facts of the case, as to which person provided the most pertinent information leading to the successful prosecution in the case.
- (c) The person providing the most pertinent information shall qualify for the Poaching-Reported Reward Permit.
- (5) Any person who receives a Poaching-Reported Reward Permit must be eligible to hunt and obtain big game permits as provided in all rules and regulations of the Wildlife Board and the Wildlife Resources Code.
- (6) For purposes of this section, "**successful prosecution**" means the screening, filing of charges and subsequent adjudication for the poaching incident.

License Suspension

The Utah Division of Wildlife Resources has the authority to suspend hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly, intentionally or recklessly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to, a wildlife violation may be subject to administrative suspension. Notification of such action is generally served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized in other states participating in the Wildlife Violator Compact.

Responsible OHV use

The Utah Division of Wildlife Resources encourages responsible OHV use. While most OHV users are responsible, misuse results in disturbance to wildlife, damage to wildlife habitat, and personal injury.

Please be aware that unlawful OHV use is a criminal offense. Utah Division of Wildlife Resources' Conservation Officers and State Parks & Recreation's Rangers regularly enforce all OHV regulations, including:

-  riding an OHV in closed or restricted areas and roadways;
-  harassment of wildlife;
-  helmet-law regulations; and
-  OHV operator age restriction regulations.

Many designated roads and trails on public lands are available to responsible OHV users. You may obtain a copy of a "Travel Opportunity Guide" from the appropriate federal land management agencies (USDA Forest Service or Bureau of Land Management). Please refer to the "Travel Opportunity Guide" for locations where you can ride. Under Utah state law, all public lands are closed to OHV use unless designated open by map, sign, or description. The closures protect sensitive natural resources such as watersheds and valued wildlife habitats, and ensure public safety.

The Utah Division of Wildlife Resources owns and manages several hundred thousand acres of Wildlife Management Areas across the state for wildlife purposes. Controlled OHV use on these lands protects wildlife and their habitats.

Utah law also requires youth, ages 8 to 16, to receive OHV certification before operating an OHV on open public-land roads and trails. Certification classes teach safety and instill ethics in young OHV users. Remember, to be a responsible rider also means receiving proper education.

Please call

1-800-OHV-RIDE

to enroll in the OHV safety certification classes.

Protect your privilege, stay on designated roads and trails. Have fun by taking time out to hunt, fish, photograph or watch wildlife.

Be a responsible OHV user so you can help ensure a wildlife heritage for future generations.

Utah!
Where ideas connect

There's More To Hunter Safety & Responsibility Than Just Weapons Safety

What Can You Do To Prevent Wildfires?

- Find out if there are any fire restrictions in the area you plan to visit.
- When smoking outside a vehicle, safe practices require at least a 3-foot area cleared to bare dirt.
- Limit use of motorized vehicles to established roads or trails.
- Do not park vehicles over dry grass or brush, hot exhaust systems can and do start fires.
- Keep a bucket, shovel and fire extinguisher in your vehicle and at your camp.
- Ensure your ATV's and motorcycles are equipped with spark arresters.

Talk to other hunters about fire safety and SPREAD THE WORD.

Ensure all fires are DEAD OUT!

Be responsible and protect your hunting opportunities.

Build A Safe Campfire

- Check to see if a campfire is allowed in the area you plan to visit.
- Use designated sites or clear an area at least 10 feet across.
- Build campfires away from overhanging branches.
- Keep fire small and controllable.
- Never leave a campfire unattended.
- Drown fire with water and stir remains to make sure all embers, coals & sticks are wet and cool to the touch.

Check with your local agencies to see if there are any prescribed fires taking place where you are planning to hunt.

**Help Out —
Report All Fires
To Your Local Agencies.**

On the cover:

Ron Anderson has been blessed with a love of life. Hunting and fishing are tradition in his family (bordering on obsession). Given the opportunity he would choose going 'in the hills' over most any other activity. This continually produces experiences and observances of wildlife that ultimately becomes the subject of his oil paintings. A Utah native, the mountains around him include the Pahvant, Monroe, Fish Lake-Thousand Lakes

Plateau, and the Manti, all well known to trophy elk enthusiasts! There is an abundance of other wildlife here besides, however, and anything that moves can become a likely subject. A self taught artist Ron has held off going public with his art work until he has become comfortable with his ability to realistically portray the animals he absolutely adores. Ron hopes that others will appreciate this desire and be able to share outdoor experiences "brought to life" on canvas.

The Division of Wildlife Resources manages and maintains numerous Wildlife and Waterfowl Management Areas throughout the state. These areas are closed during certain times of the year to protect wildlife. Before visiting a WMA, please call the regional Wildlife Resources office in your area for open dates.

UDWR Funding:

The Division of Wildlife Resources is funded by the sale of hunting and fishing licenses and through federal aid made possible through an excise tax on the sale of fire arms and other hunting- and fishing-related equipment.

Chronic Wasting Disease Update

WHAT IS CHRONIC WASTING DISEASE?

Chronic wasting disease (CWD) is a relatively rare neurological disease found only in wild and captive deer and elk herds in North America. It is generally found in less than one percent of wild elk and between one to 15 percent of wild deer populations.

CWD belongs to a family of diseases known as transmissible spongiform encephalopathies (TSE) or prion diseases. Other TSE diseases include scrapie in domestic sheep, bovine spongiform encephalopathies or mad cow disease, and Creutzfeldt-Jakob disease in humans. Although CWD shares certain features with other TSE diseases, it is a distinct disease apparently affecting only deer and elk.

WHAT ARE THE CLINICAL SIGNS OF CWD?

Chronic wasting disease attacks the brains of infected deer and elk, causing the animals to become emaciated, display abnormal behavior, lose bodily function and eventually die.

Other symptoms include excessive salivation, loss of appetite, excessive thirst and urination, holding the head in a lowered position, and drooping ears.

There is currently no evidence that CWD is transmissible to humans. There is also no scientific evidence that chronic wasting disease can be naturally transmitted to livestock or other big game animals.

HOW IS CWD DIAGNOSED?

The prion that causes CWD accumulates in certain parts of an infected deer or elk including the brain, eyes, spinal cord, lymph nodes, tonsils, and spleen. The brain stem and/or lymph nodes are collected from dead deer or elk and examined microscopically using special techniques to identify the CWD prion.

CWD IN UTAH

Chronic wasting disease was first discovered in Colorado in the 1960s. CWD is now found in several states, including Utah. The Utah Division of Wildlife Resources (UDWR) first began looking for chronic wasting disease in 1998. More than 700 samples were taken from hunter-harvested deer and elk in 1998 and 1999. None of these samples tested positive for CWD. Because CWD-positive deer were discovered in western Colorado in 2002, the UDWR stepped up its surveillance program and looked more aggressively for the disease, testing nearly 1,100 deer. The first positive animal was identified in 2002 as a result of this testing effort near Vernal. In 2003, nearly 3,100 hunter-harvested mule deer were tested and some new cases of CWD were identified. For an update on CWD locations in Utah please view the UDWR Web site: wildlife.utah.gov. The UDWR will continue to conduct an annual surveillance program for the disease.

HOW CAN HUNTERS HELP?

Immediately report all deer that appear sick or emaciated to a UDWR office, biologist or officer.

Salt Lake Office (801) 538-4700
Southeastern Region (435) 636-0260
Central Region (801) 491-5678
Northeastern Region (435) 781-9453
Southern Region (435) 865-6100
Northern Region (801) 476-2740

Deer hunters can also help by providing the heads of harvested game animals for CWD testing at checking stations throughout the state. Hunters who harvest trophy animals from areas where testing is needed may be requested to cooperate by removing the cape from the deer in the field or by taking the head to a Division office immediately after it is caped. The UDWR can then remove a tissue sample from the head for testing.

CAN HUNTERS HAVE THEIR DEER AND ELK TESTED FOR CWD?

The UDWR has identified sample units throughout the state from which it will collect tissue samples from harvested deer. Checking stations will be established throughout the state during hunting season to collect these samples. Samples collected by UDWR will be tested without cost to the hunter. The UDWR is not currently conducting a surveillance program to test elk because of the low prevalence rate of CWD. Hunters who have their deer sampled by the UDWR can find the results of the test on the UDWR Web site: wildlife.utah.gov/cwdtesting/. Please allow 6-8 weeks for processing. To access the results, hunters will need the submission number from the data collection receipt issued at the time their deer is sampled. Furthermore, hunters will be notified personally, if their animal tests positive for CWD.

Anyone who harvests a deer or elk outside of UDWR sample units, and wishes to have it tested for chronic wasting disease may do so at their own expense. They can call a UDWR office or check the Division Web site for the location of public testing facilities.

The sampling and testing procedures established by the UDWR are intended only to serve as a method to screen for evidence of CWD infection. They are not meant to provide assurance of meat quality for human consumption. The tests that are performed have a high accuracy rate, but no testing process can provide 100% accuracy. The sensitivity and accuracy of the tests, or ability to detect CWD, can vary depending on the quality of the sample and the stage of the infection.

SHOULD UTAH HUNTERS BE CONCERNED ABOUT CWD?

The World Health Organization has stated: "There is currently no evidence that CWD in cervidae (deer and elk) is transmitted to humans."

While there is currently no evidence that CWD affects humans, hunters may wish to take these simple precautions when handling deer and elk carcasses:

- Do not harvest or eat animals that appear sick.
- Wear rubber or latex gloves when field dressing and processing game meat.
- Bone out the meat from the deer or elk and remove all fat, membranes and connective tissue.
- Minimize handling of the brain, spinal cord, spleen and lymph nodes. Do not cut through the spinal cord except to remove the head.
- Do not consume the brain, spinal cord, eyes, spleen, tonsils or lymph nodes.
- Do not use household utensils to field dress or process meat. Thoroughly clean all knives, equipment and work areas with a 50/50 solution of household bleach and water.

PROTECT WILDLIFE HABITAT

Use of certified noxious weed-free hay and straw is required on all Federal and State Trust Lands.

Contact your County Extension Agent for weed free alternatives and available sources or go to <http://ag.utah.gov> → Weed Free Hay

Vehicles, ATVs, and trailers should be weed-free upon entering Federal and State Trust Lands.

Report weed infestations to local land management offices.

New book: Access to Wildlife Lands in Utah

The Utah Division of Wildlife Resources has long recognized the important role habitat plays in maintaining diverse fish and wildlife resources. Toward that end, more than 100 Wildlife Management Areas (WMAs) have been established around the state. Virtually all of these lands are open for some type of wildlife-oriented public use.

One hundred eight WMAs and significant units within those WMAs are included in this book. The book also lists state fish hatcheries and fishing access locations.

The maps in this book were created by adding DWR land ownership information to available land status and topographic base maps. We use land status base maps so users could see adjacent land ownership patterns.

Get Involved With Utah Wildlife

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who represents business interests
- one member who is a locally appointed public official
- one member from the USDA Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources. Members may serve up to two, two-year terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate

all perspectives and come to the decision that they feel is best for all of Utah's wildlife and its citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommendations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division Web site:

HELP STOP POACHING!

Poaching is a crime

Simply defined "poaching" is any illegal taking of fish, game or nongame wildlife.

- It is not a crime committed against the Division of Wildlife Resources, but a crime affecting all citizens of the State of Utah.
- Poachers steal from consumptive and nonconsumptive users alike. Present and future generations of law abiding outdoorsmen are the victims.
- Poachers erode public support of hunting and fishing. They threaten the existence of our sport. In short, poaching is a serious crime, and poachers are nothing more than thieves.

Many entities in the private sector are partnering with the DWR to help protect our wildlife resources.

For example, UBET Wireless and Cellular One are making it possible for most wireless phone users to report poaching — free of charge.

Both companies are donating roaming and air charges for calls originating in many parts of rural Utah, no matter who your wireless provider is.

To contact the DWR Help Stop Poaching hotline on your wireless phone, simply dial *DEER and hit send.

Ethics: "A peculiar virtue in wildlife ethics is that the hunter ordinarily has no gallery to approve or disapprove of his conduct. Whatever his acts, they are dictated by his own conscience, rather than by a mob of onlookers. It is difficult to exaggerate the importance of this fact." —Aldo Leopold
